

# The Howard County Public School System

School Construction Outlook

# What do the next 12 months look like?

We have capital funding for approximately  
\$35.5 Million

This includes a new middle school and 5-8  
major  
and minor renovations

# What do the next 5 years look like?

If I knew that answer, I would not be  
here.....

# However, in competition with limited County capital funds – we hope to.....

- Continue to fund project currently under construction
- Renovate and add to our Old Cedar Lane facility
- Renovate Hammond High School
- Construct a new elementary school - #42
- Address our aging buildings with an almost equal amount of funds going to renovations and roof replacements
